Braun J, Baraliakos X, Hermann K-GA, *et al.* Golimumab reduces spinal inflammation in ankylosing spondylitis: MRI results of the randomised, placebo-controlled GO-RAISE study. *Ann Rheum Dis* 2012;**71**:878–84. In table 3, the interquartile range for the median change at week 14 in the golimumab 50 mg group currently reads as 10.8, –0.3 and should be –10.8, –0.3.

*Ann Rheum Dis* 2013;**72**:788. doi:10.1136/annrheumdis-2011-200308corr1
