

Arthropathy of Wilson's disease. Study of clinical and radiological features in 32 patients <i>D. N. Golding and J. M. Walshe</i>	99
The HLA system and the arthropathies associated with psoriasis <i>C. J. Eastmond and J. C. Woodrow</i>	112
Chemical composition and swelling of normal and osteoarthrotic femoral head cartilage. I. Chemical composition <i>M. Venn and A. Maroudas</i>	121
Lysosomal activation by neutral saccharides in cell cultures of synovium <i>J. Le Marshall, J. R. E. Fraser, and K. D. Muirden</i>	130
Low tension studies of collagen fibres from ligaments of the human spine <i>J. S. Shah, M. I. V. Jayson, and W. G. J. Hampson</i>	139
Chondrocalcinosis in primary hyperparathyroidism. Influence of age, metabolic bone disease, and parathyroidectomy <i>M. H. Pritchard and J. D. Jessop</i>	146
Involvement of the eye in SLE and scleroderma. A study using fluorescein angiography in addition to clinical ophthalmic assessment <i>D. M. Grennan and J. Forrester</i>	152
Correlation between levels of DNA antibodies and clinical disease activity in SLE. Retrospective evaluation <i>P. Davis, J. S. Percy and A. S. Russell</i>	157
Comparison of the effects of alclofenac, flurbiprofen, and prednisolone on acute inflammatory response in the rat <i>J. Woodland, B. Vernon-Roberts, K. V. Swettenham, and H. L. F. Currey</i>	160
Protease and antiprotease levels in blood of arthritic rats <i>D. P. Parrott and D. A. Lewis</i>	166
Inhibition of Fc-rosette formation by synovial fluids from patients with rheumatoid arthritis <i>Y. Hashimoto, T. Morito, K. Tanimoto, and Y. Horiuchi</i>	170
Lymphocyte subpopulations in rheumatoid synovial tissue <i>A. Wangel and M. Klockars</i>	176
Role of ineffective erythropoiesis in the anaemia of rheumatoid arthritis <i>D. Samson, D. Halliday, and J. M. Gumpel</i>	181
Measurement of pain in juvenile chronic polyarthritis <i>P. J. Scott, B. M. Ansell, and E. C. Huskisson</i>	186
Pain in the knee associated with osteoporosis of the patella <i>M. Corbett, J. R. Colston, and A. K. Tucker</i>	188
Successful treatment of severe bone pain and acute arthritis in chronic myelomonocytic leukaemia by cytosine arabinoside <i>D. Douer, A. Weinberger, M. Djaldetti, J. Pinkhas, and A. de Vries</i>	192
