

The *Annals of the Rheumatic Diseases*, founded by the Empire Rheumatism Council, has the support of the following organizations: La Ligue Internationale contre le Rhumatisme, and the American, British, and European Branches of the Ligue; the American Rheumatism Association; the Canadian Rheumatism Association; all of which are represented on the Editorial Board.

It is hoped to publish in the *Annals* announcements of the activities of these bodies, and from time to time accounts of their Proceedings. Members of these various organizations wishing to submit papers for publication in the *Annals* should send them to their representative on the Editorial Board, who will be responsible for forwarding them to the Editors of the *Annals*, with whom the final decision will lie.

NOTICE TO SUBSCRIBERS

Subscriptions are payable to the British Medical Association. Address: British Medical Association House, Tavistock Square, London, W.C.1.

NOTICE TO CONTRIBUTORS

Papers submitted to this Journal are accepted on the understanding that they have not been and will not be published in any other journal, and are subject to editorial revision. All papers and other editorial communications should be addressed to Dr. W. S. C. Copeman, c/o the British Medical Journal, B.M.A. House, Tavistock Square, London, W.C.1, with the exception of American original articles which should be submitted in the first place to one of the American Editors.

The author of an original article should make adequate references to previous work on his chosen subject.

A full summary of his observations and conclusions must be given.

A paper describing a single case will not be accepted unless the case is sufficiently rare, or shows important features not previously described, or has been made the subject of special observation or experiment.

Articles must be as concise as possible and be typewritten on one side of the paper only, with double spacing and a margin of not less than 1½ inches. Only recognized abbreviations should be used. Graphs, charts, tables, and legends for them should be presented on separate sheets and not included in the text. When half-tone reproduction of x-ray illustrations is required, the author is advised to send the original film unless he wishes to bring out special points in a print of his own choice. Photographs and photomicrographs should be printed on glossy paper, should be larger than the size desired for reproduction, and, if transmitted through the post in a tube, should be rolled with the picture outside. With the exception of letters and numbers, which should be lightly written in pencil, everything that is to appear in the reproduction of a graph or chart should be carefully drawn in black ink on tracing linen, or Bristol board, or stout, smooth, white paper.

References should be arranged according to the Harvard system. In the text, the year of publication must follow the author's name, more than one paper by the same author in any one year being indicated by a small letter (*a, b, c*) after the date. No numbering of references is necessary. At the end of the contribution references are arranged in the alphabetical order of the author's names. The reference details are given as follows: Author's name and initials, year of publication (in parentheses), title of periodical (in italics, abbreviated according to *World Medical Periodicals*), volume number (bold type, Arabic numerals), and first page number (ordinary type, Arabic numerals), thus:

Cowan, J. (1929). *Quart. J. Med.*, 22, 237.

When a book is referred to, the full title, publisher, place and year of publication, edition and page number should be given.

Contributors will receive one proof, but it is assumed that all but verbal corrections have been made in the original manuscript; an allowance at the rate of ten shillings per sheet of sixteen pages is made for alterations in the proof (printer's errors excepted), and contributors will be responsible for any excess.

Fifty free reprints of articles will, if desired, be given to contributors. A limited number of additional reprints at cost price can be supplied if application is made when returning proofs. An estimate of the cost may be had from the Publishing Manager, British Medical Association.

Papers which have been published become the property of this Journal, and permission to republish must be obtained from the Editors.

Application for advertisement space should be addressed to the Advertisement Manager, British Medical Association, Tavistock Square, London, W.C.1.

THE BRITISH MEDICAL ASSOCIATION AND THE PROMOTION OF KNOWLEDGE

ONE of the foremost aims of the British Medical Association is the promotion of medical and allied sciences and each year a considerable portion of its income is spent in the attainment of this object through the publication of a wide range of general and specialist journals.

The chief of the publications is the BRITISH MEDICAL JOURNAL with a weekly circulation of over 84,000 copies. The Journal serves as a comprehensive record of current developments and is a forum for discussion in every field of medical science and professional organization in this country.
