<b>SPEAKERS</b> .. .. .	<i>Suppl.</i> v
<b>COAUTHORS AND ADDITIONAL DISCUSSANTS</b> .. .. .	<i>Suppl.</i> v
<b>INTRODUCTION</b>	
<b>Opening remarks</b> .. .. .	<i>Suppl.</i> 1
M. ZIFF	
<b>WORKSHOP I. FEATURES AND PROGNOSIS OF REITER'S SYNDROME</b>	
<b>Clinical aspects</b> .. .. .	<i>Suppl.</i> 4
G. W. CSONKA	
<b>Evaluation of proposed criteria</b> .. .. .	<i>Suppl.</i> 8
R. F. WILLKENS, F. C. ARNETT, T. BITTER, A. CALIN, LLOYD FISHER, D. K. FORD, A. E. GOOD, AND A. T. MASI	
<b>Radiological manifestations</b> .. .. .	<i>Suppl.</i> 12
W. MARTEL	
<b>Long-term follow-up and prognosis</b> .. .. .	<i>Suppl.</i> 24
G. W. CSONKA .. .. .	
<b>Prognosis and natural history</b> .. .. .	<i>Suppl.</i> 29
A. CALIN, R. FOX, R. C. GERBER, AND D. J. GIBSON	
<b>Long-term follow-up data</b> .. .. .	<i>Suppl.</i> 32
B. AMOR	
<b>Scintigraphic evaluation and prognosis</b> .. .. .	<i>Suppl.</i> 34
A. S. RUSSELL, M. J. BUTLER, AND B. C. LENTLE	
<sup>99m</sup> Tc EDHP bone scintiscans in healthy young adults and patients with RS ..	<i>Suppl.</i> 38
K. K. BANDILLA	
<b>Long-term follow-up in relation to development of ankylosing spondylitis</b> ..	<i>Suppl.</i> 39
A. E. GOOD	
<b>WORKSHOP II. DIAGNOSIS OF REITER'S SYNDROME AMONG B27-ASSOCIATED AND OTHER SERONEGATIVE SPONDARTHROPATHIES</b>	
<b>Introduction</b> .. .. .	<i>Suppl.</i> 46
F. C. ARNETT	
<b>Reiter's syndrome versus seronegative rheumatoid arthritis</b> .. .. .	<i>Suppl.</i> 48
A. T. MASI AND S. L. FEIGENBAUM	
<b>Sexually acquired reactive arthritis</b> .. .. .	<i>Suppl.</i> 52
A. C. KEAT, J. T. SCOTT, G. L. RIDGWAY, R. N. MAINI, AND G. D. PEGRUM	
<b>Comparative study of gonococcal arthritis and Reiter's syndrome</b> .. .. .	<i>Suppl.</i> 55
E. R. HURD, J. JOHNS, AND A. CHUBICK	
<b>Psoriatic arthropathy and seronegative rheumatoid arthritis with psoriasis: distinguishing features from RS</b> .. .. .	<i>Suppl.</i> 59
V. WRIGHT	
<b>Keratoderma blennorrhagica and mucocutaneous manifestations of Reiter's syndrome</b> .. .. .	<i>Suppl.</i> 68
A. CALIN	
<b>Incomplete Reiter's syndrome: clinical comparisons with classical triad</b> .. ..	<i>Suppl.</i> 73
F. C. ARNETT	

	<i>Supplement page</i>
<b>Pauciarticular juvenile rheumatoid arthritis: clinical and immunogenetic aspects</b>	<i>Suppl.</i> 79
C. FINK AND P. STASTNY	
<b>Persistent yet reversible adult pauciartthritis (PRAP): a B27-associated cluster</b> ..	<i>Suppl.</i> 84
T. BITTER, M. JEANNET, E. DE HALLER, AND M. LEJEUNE	
<b>Uveitis in B27-related disease</b> .. .. .	<i>Suppl.</i> 92
E. S. PERKINS	
<b>WORKSHOP III. MANAGEMENT OF REITER'S SYNDROME</b>	
<b>Management</b> .. .. .	<i>Suppl.</i> 96
A. CALIN	
<b>Antibiotic treatment</b> .. .. .	<i>Suppl.</i> 98
D. K. FORD	
<b>Is there a place for corticosteroids or immune modulation in RS and ankylosing spondylitis?</b> .. .. .	<i>Suppl.</i> 100
M. ROSENTHAL	
<b>WORKSHOP IV. AETIOPATHOGENETIC FACTORS IN REITER'S SYNDROME</b>	
<b>Adjuvant disease: pathology and immune reactivity</b> .. .. .	<i>Suppl.</i> 102
C. M. PEARSON AND Y. H. CHANG	
<b>Pathogenesis of chlamydial polyarthritis in domestic animals: characteristics of causative agent</b> .. .. .	<i>Suppl.</i> 111
J. STORZ AND P. SPEARS	
<b>Immunological evidence of chlamydial infection in Reiter's syndrome</b> .. .. .	<i>Suppl.</i> 116
B. AMOR, A. KAHAN, J. ORFILA, AND D. THOMAS	
<b>Shigellae and Reiter's syndrome</b> .. .. .	<i>Suppl.</i> 119
A. E. GOOD	
<b>Immune responses in Yersinia-associated reactive arthritis</b> .. .. .	<i>Suppl.</i> 123
K. AHO, P. AHVONEN, T. JUVAKOSKI, M. KUNSA, M. LEIRISALO, AND O. LAITINEN	
<b>Yersinia-induced arthritis and Reiter's syndrome</b> .. .. .	<i>Suppl.</i> 127
D. K. FORD	
<b>Cell-mediated immunity to <i>Ureaplasma urealyticum</i> (<i>Mycoplasma</i>) in patients with Reiter's disease</b> .. .. .	<i>Suppl.</i> 129
D. K. FORD	
<b>Epidemiology of B27-associated diseases</b> .. .. .	<i>Suppl.</i> 131
A. T. MASI	
<b>Genetics of B27-associated diseases—1</b> .. .. .	<i>Suppl.</i> 135
J. C. WOODROW	
<b>Genetics of B27-associated diseases—2</b> .. .. .	<i>Suppl.</i> 142
E. D. ALBERT, S. SCHOLZ, AND U. CHRIST	
<b>Many genes, many clinical features</b> .. .. .	<i>Suppl.</i> 145
D. A. BREWERTON	
<b>CONCLUSION</b>	
<b>Concluding remarks</b> .. .. .	<i>Suppl.</i> 149
G. R. V. HUGHES	
<b>REFERENCES</b> .. .. .	<i>Suppl.</i> 151
