	Page
Heberden Oration 1981: Epidemiology and the arthritides ROY M. ACHESON	325
Anglo-French contributions to the recognition of rheumatoid arthritis KEVIN J. FRASER	335
Frequency of chondrocalcinosis of the knees in asymptomatic hyperuricaemia and rheumatoid arthritis: a controlled study P. HOLLINGWORTH, P. L. WILLIAMS, AND J. T. SCOTT	344
Methyl prednisolone pulse therapy in the treatment of systemic lupus erythematosus DAVID A. ISENBERG, W. JOHN W. MORROW, AND MICHAEL L. SNAITH	347
Mitral valve prolapse and joint hypermobility: evidence for a systemic connective tissue abnormality? DAVID FITCHER AND RODNEY GRAHAME	352
Evaluation of popliteal cysts and painful calves with ultrasonography: comparison with arthrography B. M. GOMPELS AND L. G. DARLINGTON	355
Rheumatoid and other diseases of the cervical interspinous bursae, and changes in the spinous processes E. G. L. BYWATERS	360
Pyrophosphate arthropathy: a clinical and radiological study of 105 cases P. A. DIEPPE, G. J. M. ALEXANDER, H. E. JONES, M. DOHERTY, D. G. I. SCOTT, A. MANHIRE, AND I. WATT	371
Pyrophosphate arthropathy: a study of metabolic associations and laboratory data G. M. ALEXANDER, P. A. DIEPPE, M. DOHERTY, AND F. G. I. SCOTT	377
Antinuclear antibodies in patients with Raynaud's phenomenon: clinical significance of anticentromere antibodies C. G. M. KALLENBERG, G. W. PASTOOR, A. A. WOUDA, AND T. H. THE	382
Prognostic value of anti-dsDNA in SLE A. J. G. SWAAK, J. GROENWOLD, L. A. AARDEN, L. W. STATIUS VAN EPS, AND T. E. W. FELTKAMP	388
Studies on autoantibodies to poly (adenosine diphosphate-ribose) in SLE and other autoimmune diseases W. J. W. MORROW, D. A. ISENBERG, H. F. PARRY, L. SHEN, E. E. OKOLIE, F. FARZANEH, S. SHALL, AND M. L. SNAITH	396
Association of HLA-Aw31 and HLA-DR1 with adult rheumatoid arthritis B. SCHIFF, Y. MIZRACHI, S. ORGAD, M. YARON, AND E. GAZIT	403
IgE and IgE-rheumatoid factor in circulating immune complexes in rheumatoid arthritis K. MERETEY, A. FALUS, C. C. ERHARDT, AND R. N. MAINI	405
Spontaneous lymphocyte-mediated (NK cell) cytotoxicity in systemic sclerosis: a comparison with antibody-dependent lymphocyte (K cell) cytotoxicity J. K. WRIGHT, P. HUGHES, AND N. R. ROWELL	409
Lymphocyte cytotoxicity in systemic sclerosis: no increase on short-term culture with established human cell lines J. K. WRIGHT, P. HUGHES, AND N. R. ROWELL	414
Natural killer cell activity in untreated systemic lupus erythematosus KAZUO OSHIMI, MORITO SUMIYA, NOBUYUKI GONDA, SHOGO KANO, AND FUMIMARO TAKAKU	417
Polymorphonuclear function in Behçet's syndrome J. N. FORDHAM, P. G. DAVIES, A. KIRK, AND H. L. F. CURREY	421
Nephelometry compared with differential antibody titre in routine rheumatoid factor measurements R. K. KNIGHT AND M. H. PRITCHARD	426
Fate of the thiomalate part after intramuscular administration of aurothiomalate in rheumatoid arthritis E. JELLUM AND E. MUNTHE	431
Correspondence	433
Book reviews	438
Notes	440
