Annals of the

RHEUMATIC DISEASES

- | | |
|------------------------------|--|
| Leader | 317 Simple low back pain: rest or active exercise? <i>Gordon Waddell</i> |
| Rheumatological stamp | 319 Aristotle. <i>Yale Andelman</i> |
| Notes and news | 320 Forthcoming events |
| Book review | 321 Occupational musculoskeletal disorders |
| Extended reports | 322 Rheumatoid arthritis, HLA identity, and age at menarche. <i>C M Deighton, H Sykes, D J Walker</i> |
| | 327 A T cell receptor β chain variable region polymorphism associated with radiographic progression in rheumatoid arthritis. <i>Niek de Vries, Clemens F M Prinsen, Ewald B J M Mensink, et al</i> |
| | 332 Radiological progression in rheumatoid arthritis: how many patients are required in a treatment trial to test disease modification? <i>John T Sharp, Frederick Wolfe, Mary Corbett, et al</i> |
| | 338 Serum osteocalcin and carboxyterminal propeptide of type I procollagen in rheumatoid arthritis. <i>Heikki Kröger, Juha Risteli, Leila Risteli, et al</i> |
| | 343 Serum osteocalcin and vitamin D metabolites in patients with ankylosing spondylitis. <i>H Franck, E Keck</i> |
| | 347 Activation of neutrophils by soluble and insoluble immunoglobulin aggregates from synovial fluid of patients with rheumatoid arthritis. <i>John J Robinson, Fiona Watson, Mark Phelan, et al</i> |
| | 354 Receptor expression in synovial fluid neutrophils from patients with rheumatoid arthritis. <i>Fiona Watson, John J Robinson, Mark Phelan, et al</i> |
| | 360 Hydroxychloroquine treatment for primary Sjögren's syndrome: a two year double blind crossover trial. <i>A A Kruize, R J Hené, C G M Kallenberg, et al</i> |
| | 365 Antinuclear antibodies in patients with scleroderma (systemic sclerosis) and in their blood relatives and spouses. <i>A J Barnett, L J McNeilage</i> |
| | 369 Adaptation of canine femoral head articular cartilage to long distance running exercise in young beagles. <i>Mikko J Lammi, Tomi P Häkkinen, Jyrki J Parkkinen, et al</i> |
| Hypothesis | 378 Abnormalities in the regulation of variable region genes that encode for antibodies to DNA may be a central factor in the pathogenesis of systemic lupus erythematosus. <i>A K Singh</i> |
| Letters | 384 Refrigeration preserves synovial fluid cytology. <i>S T M Jones, J Denton, P J L Holi, et al</i> |
| | 384 Antineutrophil cytoplasmic antibodies in polycondritis. <i>T Papo, J C Piette, Le Thi Huong Du, et al</i> |
| | 385 Two sisters with ANCA positive vasculitis. <i>E A Murphy, R D Sturrock, J G Fox et al</i> |
| | 385 Acquired Brown's syndrome in a patient with SLE. <i>James McGalliard, Aubrey L Bell</i> |
| | 386 Femoral head osteonecrosis in primary hypertrophic osteoarthropathy. <i>Ivo Jajic</i> |
| Symposium proceedings | 387 Second European Symposium on Lyme Borreliosis |
