Volume 73 Issue 11 | ARD November 2014

Editorial
1911 The impact of obesity on the development and progression of rheumatoid arthritis
A Finckh, C Tarescon

Clinical and epidemiological research
1914 Being overweight or obese and risk of developing rheumatoid arthritis among women: a prospective cohort study
B Lu, L T Hirsch, J A Sparks, S Malpass, C-Y Chen, J A Anwongvee, E V Akerma, K H Costenbader, E W Karlsson

1923 Greater body mass independently predicts less radiographic progression on X-ray and MRI over 1–2 years
J F Baker, M Østergaard, M George, J Shulman, P Emery, D G Baker, P G Conaghan

1929 Ultrasound definition of tendon damage in patients with rheumatoid arthritis. Results of a OMERACT consensus-based ultrasound score focusing on the diagnostic reliability
G A W Brown, P Hamvas, A Lagrou, M A D’Agostino, I Höller, T Linder, M Backhaus, P V Balint, E Filip쑴rcs, P Baslund, R van Vugt, C Finideis, R Wiekfeldt, J Garrido, O Pecha, E Narvdeo, on behalf of the OMERACT Ultrasound Task Force

1935 Association of changes in delayed gadolinium-enhanced MRI of cartilage (dGEMRIC) with changes in cartilage thickness in the medial tibiofemoral compartment of the knee: a 2 year follow-up study using 3.0 T MRI

1942 Non-viral opportunistic infections in new users of tumour necrosis factor inhibitor therapy: results of the SAFety Assessment of Biologic Thrapy (SABER) Study

1949 Long-term intake of dietary long-chain n-3 polyunsaturated fatty acids and risk of rheumatoid arthritis: a prospective cohort study of women
D Dr. Giuseppe, A Wallin, M Botto, J Asking, A Wib

1954 Targeted treatment with a combination of traditional DMARDs produces excellent clinical and radiographic long-term outcomes in early rheumatoid arthritis regardless of initial infl ammation. The 5-year follow-up results of a randomised clinical trial, the NEO-RACo trial

1962 Alcohol consumption as a preventive factor for developing rheumatoid arthritis: a dose-response meta-analysis of prospective studies
Z Jin, C Xiang, Q Can, X Wei, J He

1968 Early MRI measures independently predict 1-year and 2-year radiographic progression in rheumatoid arthritis: secondary analysis from a large clinical trial
J F Baker, M Østergaard, P Emery, C E Hsia, J Liu, D G Baker, P G Conaghan

1975 The outcome and cost-effectiveness of nurse-led care in people with rheumatoid arthritis: a multicentre randomised controlled trial
M Naido, M Lewis, C Hale, H Quinn, S Ryan, P Emery, X Bird, J Hill

1983 Interphalangeal Osteoarthritis Radiographic Simplified (ioars) score: a radiographic method to detect osteoarthritic of the interphalangeal joint finger bases on its histopathological alterations
Y-G Sun, L Anmoyo, L Ansm, S Stann, S Sida, E Niederer, G Capp, A Solimons, J Kainen, J S Solonen, K Rbab

1990 The Framingham Risk Score underestimates the extent of subclinical atherosclerosis in patients with psoriatic disease
L Ede, V Chandont, D G Gladman

1997 Association between low cortical bone mineral density, soft-tissue calcification, vascular calcification and chondrocalcinosis: a case-control study
A Abhule, S Doherty, R Maciewicz, K Mui, W Zhang, M Doherty

2003 Cross-sectional and longitudinal associations between systemic, subchondral bone mineral density and knee cartilage thickness in older adults with or without radiographic osteoarthritis
V Cao, O P Ssnuro, D Ashen, C Cussoni, A Antony, G Jones, C Ding

2010 Variations in criteria regulating treatment with reimbursed biologic DMARDs across European countries. Are differences related to country’s wealth?
P Purtuk, S Kamoyo, T K Koiste, T Sokoa, T Uhl, A Rostenon, on behalf of Eucry Clinical Eligibility Criteria for RA Treatment Working Group

2022 Differences in bone structure between rheumatoid arthritis and psoriatic arthritis patients relative to autoantibody positivity
R Kojan, S Pinzel, M Engbrechts, K Engle, J Reh, G Schett

more contents ➤
2029 Overweight decreases the chance of achieving good response and low disease activity in early rheumatoid arthritis
M E C Sandberg, C Bengtsson, H Källberg, A Wesly, J. Kräskeg, J. Alfredsson, S Saevarsdottir

2034 MRI-detected subclinical joint inflammation is associated with radiographic progression
A Krabben, W Stump, J. A H van Nues, T W J Huizinga, D van der Heide, J L Bloom, M Reijnen, A H M van der Hele van Mil

Basic and translational research

2038 Identification of a genetic variant for joint damage progression in autoantibody-positive rheumatoid arthritis

2047 An immunological biomarker to predict MTX response in early RA

2054 Ankylosing spondylitis is associated with the anthrax toxin receptor 2 gene (ANTXR2)
T Karaderi, S M Keidel, J J Pointon, L H Appleton, M A Brown, D M Evans, B P Wordsworth

Letters

2059 Evaluation of blood perfusion by laser speckle contrast analysis in different areas of hands and face in patients with systemic sclerosis
A Stahl, B Ruaro, M Castelo

2061 No association between rheumatoid arthritis, amyotrophic lateral sclerosis, and tumour necrosis factor inhibitor treatment
E V Ardema, N Felelou, T Olsson, J Aksling, on behalf of the ARTIS study group

2062 Disease-modifying effects of TD-198946 on progressed osteoarthritis in a mouse model
F Yano, S Ohba, Y Hosaka, T Sato, Ung-d Chang

Electronic pages

2029 Paying attention to the preciseness of conclusion
K Yuan, J Chen, T Li, A Xu

2034 The TRIFRA trial: efforts employed to minimise expectation bias
Qian-wen Lv, W Zhang, Q Shi, Wen-jie Zhang, P E Lipsey, X Zhang

2047 IL-23 expression and activation of autophagy in synovium and PBMCs of HLA-B27 positive patients with ankylosing spondylitis. Response to: ‘Evidence that autophagy, but not the unfolded protein response, regulates the expression of IL-23 in the gut of patients with ankylosing spondylitis and subclinical gut inflammation’ by Ciccia et al
B Neerinckx, S Carter, R Lotes

2054 Response to: ‘IL-23 expression and activation of autophagy in synovium and PBMCs of HLA-B27 positive patients with ankylosing spondylitis’ by Neerinckx et al
F Ciccia, R Alessandro, G Trolo

2059 Positron emission tomography in giant cell arteritis: a new diagnostic tool?
P I Novikov, A D Meschko, S V Moseev

2062 Authors’ response to the eLetter by Moiseev et al

2063 MBDA: what is it good for?
Y Yazici, C J Swearingen

2064 Response to: ‘MBDA: what is it good for?’ by Yazici et al
R van Vollenhoven, K Hambardzumyan, D Chernoff, R Bolce

2065 Obesity and comorbidity are independently associated with a failure to achieve remission in patients with established rheumatoid arthritis
N Ellerby, D L Mattey, J Packham, P Dawes, S L Hider
