Correction: Impact of biological therapy on work outcomes in patients with axial spondyloarthritis: results from the British Society for Rheumatology Biologics Register (BSRBR-AS) and meta-analysis

The correct figure 3 and text:

Forest plot comparing changes in WPAI outcomes between patients in the biologic and non-biologic treatment groups.

In contrast, there was no improvement in absenteeism in either treatment group; absolute change in TNFi therapy and non-TNFi therapy groups across studies were −2.2% and −2.5%, respectively, and the pooled change in absenteeism was similar in both groups (MD = −1.59, 95% CI = −5.97, 2.79) (Amended Figure 3).

The corrected values are presented in highlight.
