

Appendix D.

Table S1. Protocol Violation: All-Randomised Population

Variable	CT-P13 (N=125)	INX (N=125)	Total (N=250)
	Number (%) of patients		
Misrandomisations ^[1]	1 (0.8)	3 (2.4)	4 (1.6)
Noncompliance with inclusion/exclusion criteria	3 (2.4)	2 (1.6)	5 (2.0)
Receipt of prohibited therapy	1 (0.8)	0 (0.0)	1 (0.4)

[1] Misrandomisations defined as patients who received the opposite treatment to which they were assigned at any point during the study.
